

EFS GVM Upgrade

Second Stage of Manufacture

3770 3800 3940

The EFS GVM Upgrade Suspension System is designed to increase the GVM (Gross Vehicle Mass) of the Nissan Patrol GU Cab Chassis DX. On offer is a GVM increase to 3770kgs, 3800 kgs and 3940kgs this is dependant on the tyres fitted to the vehicle and the load indexes they adhere to.

This System is licenced by DOTARS and is recognised by all states of Australia.

Requirements

- This licence is only applicable to brand new vehicles that have not been registered.
- For vehicles that have already been registered it can be state complianced by an engineer. (Type Approval TA031 applies to Queensland registered vehicles, please contact EFS for further information).
- The EFS GVM Upgrades must be installed by an approved production facility
